HAQQIMDA

Front-End Developer and Programming Instructor with 4+ years of experience building modern, responsive, and user-friendly web applications. Skilled in AI-assisted development, leveraging tools like Cursor AI to accelerate coding, optimize workflows, and efficiently resolve technical issues. Experienced in delivering highquality web solutions and teaching programming and web technologies at Code Academy and universities for the past 3 years. Passionate about AI-driven development, problem-solving, and continuous learning.

İŞ TƏCRÜBƏSİ

Senior Frontend Developer

dek 2024 — indiyədək

FROMFOLIO Co.

Architected and developed a large-scale global web application from the ground up, taking full ownership of the front-end development process.

Independently designed, implemented, and delivered complex functionalities, transforming business requirements into scalable and high-performance solutions.

Built a modern, responsive, and user-focused application with advanced features while ensuring maintainable code architecture and optimal performance.

Managed the complete development lifecycle, including UI implementation, feature development, optimization, debugging, and continuous improvements of the platform.

Middle Frontend Developer

may 2025 — dek 2025

MARKUP AGENCY

Developed and delivered modern web applications efficiently using front-end technologies and AI-assisted tools, improving development speed and code quality.

Worked on 10+ projects, including new application development, feature improvements, maintenance, and optimization of existing solutions.

Built responsive, user-friendly, and scalable front-end solutions while collaborating with teams to deliver high-quality digital products.

Frontend Developer

yan 2023 — iyl 2025

MAESTRO STUDIO

Spearheaded the development of dynamic and responsive web applications using Vue.js and Tailwind CSS, elevating client satisfaction by 30%.

Achieved a 20% performance optimization in app solutions, setting a new standard for efficiency within the team.

Software Development Instructor

fev 2023 — iyl 2025

CODE ACADEMY CO.

Revolutionized Web Essentials and Programming curriculum, achieving a 25% increase in student performance metrics.

Designed and implemented a syllabus covering modern web technologies, resulting in a 40% improvement in students' skills.

Spearheaded a mentorship program for advanced students, resulting in 3 student projects being adopted in real-world usage.

Facilitated the introduction of Typescript and React JS into the syllabus, significantly enhancing the coding proficiency of students.

TƏHSİL

Doctor Of Philosophy in Ecology field

2024 — indiyədək

National AeroCosmic Agency

Master of Science Computer Science Grade - 91

2022 — 2024

Azerbaijan Technical University

Bachelor of Science Computer Science Grade – 84

2018 — 2022

Baku State University
